Nixon Leaves For Moscow In 3rd Journey For Peace

By HELEN THOMAS
UPI White House Reporter

WASHINGTON (UPI) — President Nixon headed today for his third Summit meeting in a little over two years with Soviet leaders, expressing hope his new "journey for peace" would help avoid a runaway arms race and a danger of world war.

Nixon flew first to Brussels for meetings with some of the top leaders of NATO countries—with the aim of giving "new purpose and direction" to the alliance—before going to Moscow Thursday.

In a brief departure ceremony at Andrews Air Force Base, just outside Washington, Nixon said that "as we take off on another journey for peace," his aim at the Moscow Summit was threefold:

—"First, we expect to strengthen the bilateral relations between the two strongest nations in the world.

—"Second, we hope to develop areas of cooperation to displace confrontation in other critical areas of the world that might be those places where conflict could develop between the two great powers.

—"And third, we hope to make more progress on a goal that we began to achieve and move forward toward in 1972 of limiting both the burden and also the threat of nuclear arms over our two nations and over the world generally."

The President seemed in good spirits, having apparently recovered strength from the fatiguing Mideast trip. He also showed no sign, in his public appearances on leaving the White House and at the airbase, of the limp resulting from an attack of phlebitis in the leg that occurrred while he was on his way to the Mideast.

He expressed confidence, in his departure statement, that most Americans "are united behind the efforts we are making to attempt to resolve differences that otherwise would lead to a runaway arms race and otherwise would lead to confrontation not only between two great powers but all over the world."

Nixon leaves behind, as he did when he went to the Mideast for the first meeting by a President with leaders of three Arab countries in their own capitals, the multifaceted Watergate scandals, with Congress in the process of an impeachment inquiry.

He made no reference to his domestic problems as he outlined his hopes for the Moscow summit, including further steps to limit the arms race.

"These are very great goals and like all greats goals, they are difficult to achieve just as was the case of the goals we sought to achieve on our first trip to the Mideast," he said. "But we are confident that when we look at these goals not only must we seek to achieve them but we believe that we can achieve them."

Representatives of the Soviet and Belgian embassies saw Nixon off at Andrews Air Force Base, Md., just outside Washington, as he, his wife and a high-level delegation led by Secretary of State Henry A. Kissinger left for Brussels. He goes on to Moscow Thursday.

Nixon showed no sign of the limp that resulted from an attack of phlebitis in the leg and was in good spirits as he left on his second long, arduous journey this month. He told about 150 persons who saw him off at the White House that "I wish you could all go along but you're working with us in spirit."

Nixon was in good spirits at the sendoff ceremony and White House House sources said he was almost completely recovered from the phlebitis in his left leg—inflammation of veins—but was wearing an elastic stocking to give him extra support.

The sources said Nixon first noticed swelling in his left leg shortly after his arrival in Salzburg, Austria, June 9 on the first stopover of his Middle East tour which he completed a week ago today.

Nixon was dressed in his familiar dark blue suit and his wife was wearing a dark blue dress with a red patterned blouse as they departed at 8:42 a.m. EDT, 12 minutes behind schedule on the nonstop flight to Brussels.

The Nixon daughters, Tricia Cox and Julie Eisenhower, rode with their parents by helicopter from the White House to the airbase for the final sendoff.

Appraisal Necessary For Making Disaster Claims

Producers participating in the Feed Grain and Wheat Programs who plan to abandon crops planted on allotment acreage and damaged by natural disaster should have the crops appraised before putting the land to other use cautions Dan Whaley, Director of the Agricultural Stabilization and Conservation Service (ASCS) office.

Under the Agriculture and Consumer Protection Act of 1973 a producer may qualify for a special feed grain or wheat payment when a natural disaster causes crop damage if he is signed up in the 1974 Wheat and Feed Grain Program.

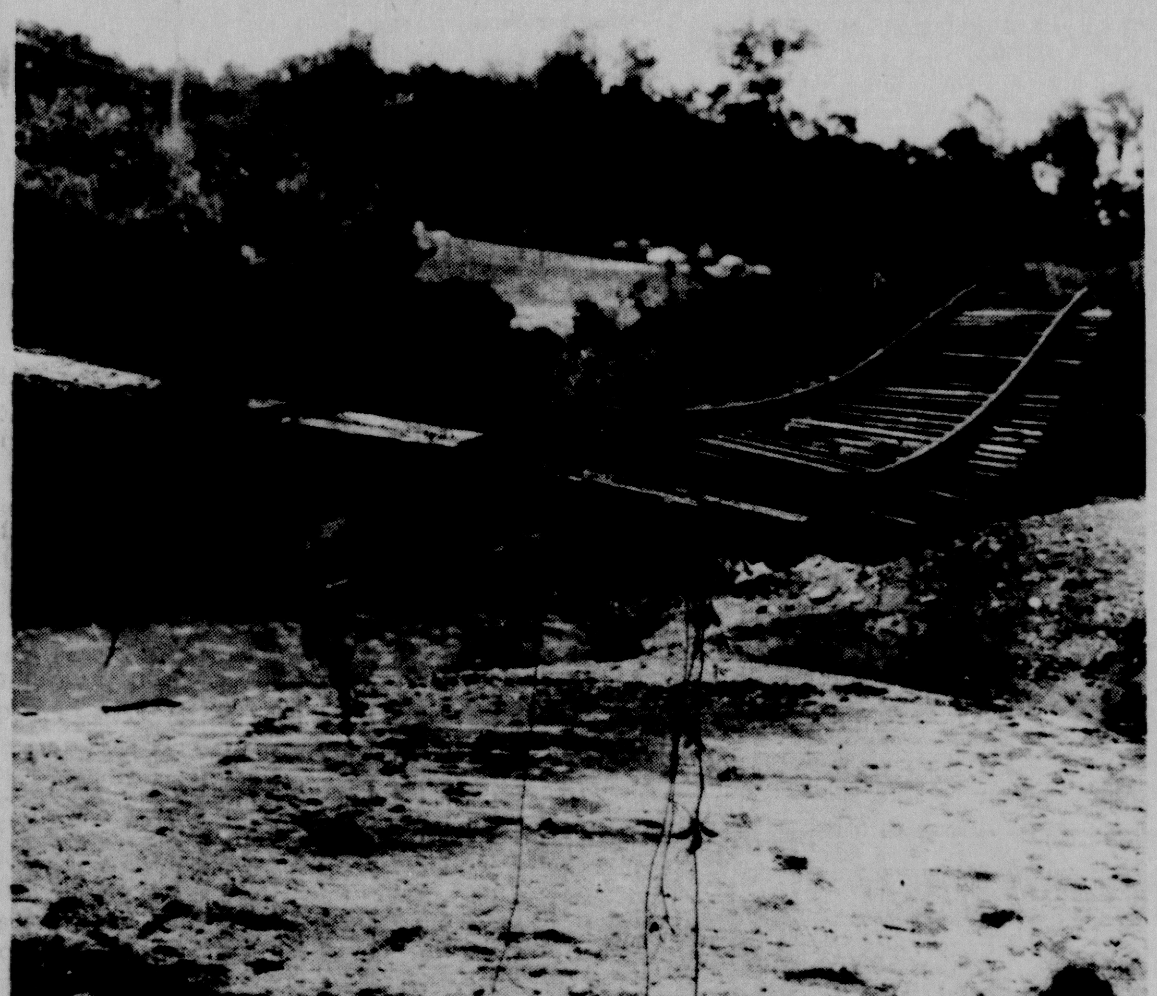
Mr. Whaley advised that a producer whose allotment is struck by a disaster should follow this procedure:

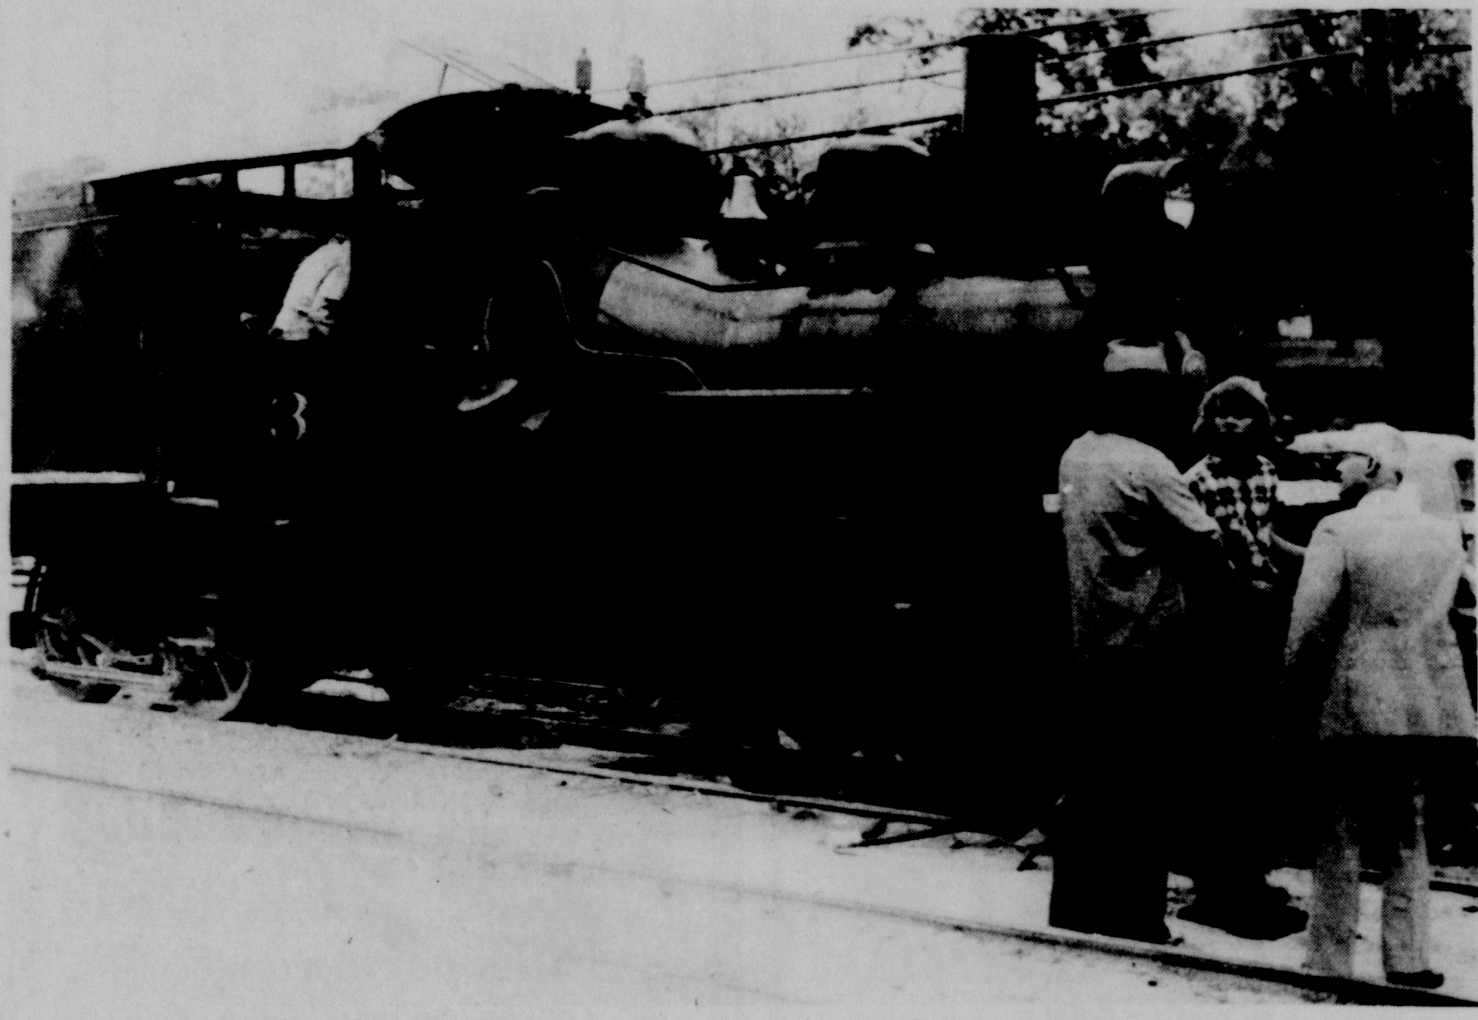
—Report the disaster damage to the county ASCS office.

—Before putting the crop or land to another use, have an ASCS official or a designated representative appraise the damage.

—After the appraisal is completed the acreage will be released by ASCS for other uses.

If the producer should decide to harvest the damaged crop after it is appraised, he must report the harvested production to the Rush County ASCS office. If after appraisal he harvests the appraised crop eligibility for payment purposes will be determined on the basis of the higher of the appraised production or the actual harvested production. Mr. Whaley reminds county farmers that wheat must be certified before harvest and all crops reported before July 15th.





Down, But Not Out!

A heavy downpour and resulting flooding has dealt a low blow to the recently opened Whitewater Valley excursion railroad with washing out of a section of roadbed near Nulltown Saturday. (Top Photo) Operating on Saturday and Sundays, the train had just pulled into Connersville Saturday evening during the heavy rainstorm and couldn't unload passengers on account of the deluge. Behind the train just north of Nulltown, a flash flood took out a 100-foot section of road bed, leaving rails suspended in the air and some cross-ties scattered in a bottomland cornfield. Luckily, the Heisler steam locomotive, shown in the lower picture, is in Brookville, and operated Sunday from Brookville to Metamora, taking short excursions toward Laurel. This was a "test run" for the restored steam engine, and it worked perfectly. A spokesman for the railroad said the steam engine would continue to pull excursionists from Brookville to Metamora on weekends until the roadbed can be repaired near Nulltown.

Thieves Enter Home In Walker Twp.

Fred Reece reported to the Sheriff's department at 9:30 a.m. Monday that someone had broken into his summer residence located in Walker Township on County Road 575 West, sometime between 12 a.m. and 8 a.m. Monday.

Upon investigation, it was learned that the someone had entered the house through the bedroom window. Further investigation revealed that all that was taken was miscellaenous household items. It was stated that the thieves apparently moved the belongings through the bedroom window.

Investigation is still underway by the sheriff's department.

Arrested at 4:30 p.m. Monday was Billy D. Napier, 43, 2325 Fair Oaks Drive, Indianapolis. Napier was stopped three miles west of Arlington on U. S. 52, for speeding. He will appear in J. P. Court.

Juveniles Arrested In Liquor Store Burglary

The Rushville Police Department reports the arrest of two men, investigation of a two-vehicle accident, and the arrest of three juveniles involved in a burglary, Monday.

Three juveniles were arrested Monday in connection with the burglary of the Brandywine Liquor Store, 109 West 1st Street, sometime Sunday.

It was reported that one of the juvenile's parents called the police station Sunday evening in reference to their son being drunk. While officers were talking to the youth, he admitted breaking into the liquor store, it was stated. The juvenile allegedly implicated two others.

The youth then showed the officers how they gained entry into the building by crawling through a window at the back. He was then taken to the police station where he admitted to other thefts in the county. On the authority of Judge G. Richard Pile, he was placed in the county jail.

The other juveniles were then arrested and released to the custody of their parents. They were advised the probation officer would get in contact with them.

Roy (Coke) Farley, 42, Rushville was arrested at 2:15 a.m. today for public intoxication, after he went to the police station to complain about an officer.

The report states that while Farley was talking to the officer

City Council Scans Budget, Passes On First Reading

The Rushville City Council took a first peek at the proposed budget for the following fiscal year, talked about funds for the new city building, and sent the clerk-treasurer on a hunt for money to repair the roof on the fire department building and finishing up work on 16th Street to the new school.

In a session which ran from 7:30 p.m. to midnight, the proposed budget was scanned which would see a $500 to $750 increase for city employes. The council approved on first reading increases of $500 each for office employes, and $750 boosts for city police, firemen, sanitation workers, and street department employes.

By juggling some funds which had been put in place by Clerk-Treasurer Otto Morre, the council ticketed $200,000, most of which is federal revenue sharing money, for the proposed city-county building.

In this regard, Mr. Moore secured permission from the council to reserve the south part of the metered parking lot on Perkins Street for those who now rent space on the lot where the new building is to be erected.

Mr. Moore also advised the council that no money has been budgeted for completion of the 16th Street to the new school building site, and the time is here for this work to start. The council directed the clerk-treasurer to conduct a search for funds so that bids may be advertised and the work begun.

Mr. Moore also pointed out that the roof on the fire department building is leaking in places, and he has an estimate on the repair. He was directed to proceed with investigation of this matter.

Roy Safewright appeared before the council to state he is investigating the air conditioning failure at the fire department building, and that he is directing a study to see what can be done.

All council members except Lester Blair, who is out of the city, were present for the meeting, as was Mayor Raymond Gibson, who has been recently in the hospital.

Councilwoman Rosemary Brown expressed her appreciation for being able to be back on the job, also, following a stint in the hospital.

The next meeting of the council will be the second Tuesday in July, when the budget will come up for second and third readings. Changes in the budget may be made until that time.

Procedure For Food Stamps Outlined By Mrs. Wilkinson

Applications for food stamps are being taken at the office recently opened for this purpose at 131 East 1st Street, according to Catherine Wilkinson, administrator of the program. Sale of food stamps will begin for those who qualify on July 1.

Mrs. Wilkinson pointed out that it is necessary for a recipient to have cards and be certified to be able to purchase stamps. "This is not automatic for recipients of aid to dependent children," she said. "It is still necessary for them to see their caseworker at the courthouse."

Mrs. Wilkinson further stated recipients are required, and anyone who receives sodial security and wants to get food stamps must show their checks or bring a signed statement from the bank taller who cashed the checks as to the exact amount.

"There is to be an increase in the July checks, so this new amount must be verified," she concluded.

Commissioners Discuss Work On Courthouse, Drainage Problems

The Rush County Commissioners served notice today that the courthouse clock will be out of business for the next three weeks while sandblasting and repairs are made to the giant clock tower. In other business in their day long session Monday, the commissioners reviewed a report on courthouse insurance, discussed county bridge repair, approved some change orders on the courthouse, heard a report on floodlighting, and met a new representative of Brown County Sanitation.

The drainage board approved some items and heard complaints on stream clogging.

Auditor Darrell Ronan said the courthouse clock, which has been stopped and started repeatedly during the renovation program of the courthouse, would now be shut down and the "works" covered until the tower has been reroofed and sandblasted. This will take approximately three weeks, if weather permits normal flow of work.

In commenting about other work phases on the courthouse, two change orders were approved by the commissioners, involving a total of $3,313. Approved were orders to scrape and paint the wooden frames, clean the clock faces, and sand blast the cheek blocks at the corners along the courthouse sidewalks.

FLOODLIGHTING

R. J. Kunke, contractor who works for Guaranteed Maintenance Corporation, the firm in charge of the courthouse renovation, advised the commissioners that it would cost an estimated $15,000 to floodlight the building as had been suggested by some individuals. A study on operating cost of such floodlighting was ordered by the commissioners.

Francis Koch and Andrew Ariens appeared before the commissioners to suggest closing a portion of county road 250 N where a bridge had washed out near the home of Mr. and Mrs. John Looney. They described the washout as a definite road hazard, and the commissioners said they would look into this matter.

It was stated that the highway department is making a study of all flood damages in the county with the idea of ordering a priority in getting the repairs made.

Marlin Hunsinger, representative of Williamson and Waite, Inc., was ordered to present a study on insurance for county property in the various offices in the courthoue. This came after Mr. Hunsinger appeared before the commissioners to discuss how an insurance program could be set up.

Jerry Hilgenberg, who is taking the place of the late Mark Evans, of Brown County Sanitation Company, was at the meeting to meet the commissioners and become familiar with the solid waste program in the county. His company has contracted for this work.

Job For Highway Department

This is just one of the many "washouts" across the county as a result of the abnormal rainfall which hit the county Saturday afternoon and evening. Shown here is the bridge near the John Looney home northeast of Rushville, with a section of roadway left with a gaping hole. Water roared over the county road from the south side and all but made the right of way impassable. County Highway crews are still surveying the damage across the county, viewing the repair job in the days ahead.

39-Year-Old Gibson Still Going

By FRED McMANE
UPI Sports Writer

Bob Gibson may be nearing his 39th birthday, but it's still too early to blow out the candles on the famed St. Louis Cardinals' righthander.

Gibson, who many thought was washed up after losing eight of his first 11 decisions this year, Monday night demonstrated the form that has made him baseball's winningest active pitcher when he tossed a four-hitter and struck out 11 in leading the Cardinals to an 11-0 victory over the Pittsburgh Pirates in the second game of a doubleheader.

St. Louis also took the opener 3-1 and moved to within one game of the first place Philadelphia Phillies in the NL East.

Gibson, who had not won a game since May 19 and was rumored headed for the bullpen, won his 241st career game to break a tie with Boston's Juan Marichal as the winningest active pitcher. His 11 strikeouts also moved him to within 12 of becoming only the second pitcher, next to Walter Johnson, to pass the 3,000 career strikeout mark.

Gibson said he had felt good for the last two or three starts but just couldn't get it together.

"Just Happens"

Anyone can know he's doing something wrong, but not know how to correct it. It's like that in pitching, hitting or writing," he said. "There's nothing you can do about it. It just happens."

Tim McCarver, who caught Gibson during the Cardinals' pennant-winning years in the 1960s, was behind the plate Monday night and said Gibson was hitting the right spots.

A three-run homer by Ted Simmons and a solo shot by Jim Dwyer provided Gibson with the only runs he needed to post his 56th career shutout. Simmons' homer was a three-run blast in the third inning.

In the opener, the Cardinals scored all their runs on four straight singles bunched around a throwing error by Richie Zisk in the second inning. Ken Reitz delivered the key single, driving in Luis Melendez, and Bake McBride also scored on the play when Zisk's throw went into the Pittsburgh dugout. Mike Tyson single home Reitz with the final run of the inning.

Philadelphia topped Montreal 8-2 in a nationally-televised game, Atlanta edged Los Angeles 4-3, Houston beat Cincinnati 6-1, San Diego nipped San Francisco 2-1 and New York defeated Chicago 4-2 in other NL games.

Phillies 8, Expos 2

Jim Lonborg pitched a six-hitter for his 10th victory and also hit a grand-slam homer to keep the Phillies in first place in the NL East. It was only the third major league homer for Lonborg, who boosted his record to 10-5. Larry Lintz collected three hits for Montreal.

Braves 4, Dodgers 3

Ivan Murrell robbed Jimmy Wynn of a three-run homer in the third inning and the Braves came from behind to beat the Dodgers on pitcher Buzz Capra's squeeze bunt in the seventh inning. Murrell tumbled into the leftfield seats to catch Wynn's long drive in the third and Capra settled down after that to retire 16 in a row en route to his eighth win in 10 decisions. Ron Cey homered for the Dodgers.

Astros 6, Reds 1

Doug Rader and Cesar Cedeno hit homers to support the five-hit pitching of Tom Griffin and lead the Astros to victory over the Reds. Rader's homer was a three-run blast while Cedeno's was a two-run shot as the Astros pinned Don Gullett with his fifth loss in 12 decisions. Griffin struck out eight in picking up his eighth win in 11 decisions.

ORTA NAMED

NEW YORK (UPI) — Chicago White Sox second baseman Jorge Orta, who belted out 16 hits and a .903 slugging average last week, earned a tie with Kansas City Royals' no-hit pitcher Steve Bisby as the American League player of the week.

Orta, benched earlier this season, bounced back last week with his first four home runs of the season bunched among the 16 hits.

Busby, of course, made history Wednesday at Milwaukee when he no-hitted the Brewers to become the first man ever to twirl no-hitters in his first two seasons in the majors.

Golf Results

The Friday Night Twilight golf league reported their results for last week.

First low gross went to the team of Fred Marlow and Verlie Moore with a 38 score. Second low gross went to Tom Stewart and Betty Waite with a 42 and third place went to Wayne Miller and Thanet Wisler with a 46.

The first low net went to Frank Green and Jane Benson with second place being held down by Jim Smith and Evelyn Miller and third by John Moore and Janet Smith.

FROM THE EDITOR'S DESK

Earl Landgrege ought to have some kind of medal. Landgrebe was the loser in a two man race at the Republican State Convention. He sought the privilege of running against Birch Bayh.

Something ought to be said for Earl and his guts to stand up in the convention and call for support of President Nixon in his battle with those who would do him in.

In his fight this fall with the unseating of Senator Bayh, it seems to me that Richard Lugar, whom I held in highest regard, might well have done without the statement against the President at South Bend. He will need all the support he can get if he is to shoot down the senator this fall.

Impeachment proceedings are about to peter out — with the effort losing steam and the committee tossing aside more items to consider day by day. One of these lost items will surely be the milk money payments; it has been discovered that few of those on the Judiciary Committee are without blemish, including Peter Rodino, chairman.

A presidential assistant says Peter ought to return the $4,100 he received from the producers' association, inasmuch as there are few dairy farmers in Newark, N.J.

Rodino's committee is studying milk money contributed to the re-election of President Nixon. However, the presidential assistant ought to know the committee isn't after Democrats. It's Republican hides they want.

Well, I see we have made a big deal with Egypt, and it is about the same way we make 'em all. On June 7 it appears we signed an agreement to ship 4,279 tons of tobacco to Egypt — and the payment for this will be over a 20 year loan period. It was reported the deal came under a general agreement for sale of surplus commodities.

I believe Egypt ought to pay cash for tobacco. They may not like us for 20 years.

We also see the Civil Liberties Union is up to par. They want Indiana's flag desecration law off the books. They go to Federal Court in Fort Wayne soon. CLU claims the law is too vague. They also claim that to wear a flag pin, auto decal, or the familiar policeman's shoulder patch is illegal, too. What the CLU really wants to do is to protect the right of dissidents to stomp the flag on the sidewalk, it appears to me. Maybe I am just ignorant.

Spiritual Pathways—

By Rev. James Tharp

A quarter of a century ago Reinold von Thadden, addressing an international group of missionary leaders, said emphatically: "The outstretched arms of the crucified Lord declare that henceforth there can be no fear and despair which God is not ready to meet with comfort and help, no more depths of loneliness and abandonment which his light and mercy cannot reach, no guilt — whether personal or collective — which was not embraced in the power of his forgiveness. These profound perspectives of the Cross condemn the Church where it wants to be more than Christ, where it wants to live more easily and less painfully then he, where it does not follow its Master into the uttermost distress."

The man sounded like his Lord, Who centuries earlier, put it this way: "Unless a grain of wheat falls into the earth and dies, it remains alone; but if it dies, it bears much fruit. He who loves his life loses it, and he who hates his life in this world will keep it for eternal life." (John 12:24-25).

"Hate" is a strong word here, but it does not mean to despise. It means to risk, to venture it, to invest it selflessly. Those of us who are always protecting ourselves, withholding ourselves, pampering ourselves, we are in the process losing, hording, wasting, squandering, our most priceless capital given us from the Creator to invest in both this life and in the one to come.

"The paradox of Christian living," writes Paul Rees, "is that life handed over to God is ultimately secure and immediately dangerous." But it is the Christian's way to live. He has God's backing and all of eternity beckoning.

Today is Tuesday, June 25, the 176th day of 1974 with 189 to follow.

The moon is approaching its first quarter.

The morning stars are Venus and Jupiter.

The evening stars are Mercury, Mars and Saturn.

Those born on this date are under the sign of Cancer.

French composer Gustave Charpentier was born June 25, 1860.

On this day in history:

In 1876, Gen. George Custer and his force of 208 men were ambushed by Sioux Indians in the battle of Little Big Horn in Montana.

In 1950, North Korean Communists invaded South Korea.

In 1962, the U.S. Supreme Court handed down a decision interpreted as barring prayer in public schools.

In 1973, White House attorney John Dean told a Senate committee President Nixon joined in the plot to cover up the Watergate break-in.

A thought for the day: British writer John Galsworthy said, "If you do not think about the future, you cannot have one."

Fake Robber

By United Press International

CHICAGO (UPI) — Police arrested Stanley Glover Thursday after he allegedly robbed the Illinois State Bank armed with a half-eaten watermelon.

Police said Glover, 23, an unemployed ex-serviceman, robbed the bank of $12,000, then began distributing the money on the street. He was carrying $8,970 when apprehended, police said.

Officers said Glover got the money by threatening a teller with a "bomb" in a brown paper bag. Police said they found only the watermelon inside.

Books Banned

AMMAN (UPI) — All books and publications written by American writer James A. Michener have been banned in Jordan.

Government sources said the ban was ordered Sunday by the Jordanian censorship department because of what they called the writer's "pro-Zionist feelings."

Dedication

ATHENS, Ga. (UPI) — Sen. John C. Stennis, D-Miss., joined other veteran U.S. senators in weekend dedication ceremonies for the Richard Russell Library at the University of Georgia. The library houses papers of Russell's 51 years in public life —the latter 38 of which were spent in the Senate from Georgia.

"I agree with the late President Truman, that except for the geography of his birth, Sen. Russell would have been president of the United States," said Stennis, who succeeded Russell as Senate Armed Services Committee chairman when Russell died in office Jan. 21, 1971.

The portrait of Russell over the library entrance is the same one that hung at the Democratic National Convention in 1952, when Russell sought nomination to succeed Truman in the White House.

Extended 50th Anniversary

With four generations of their family present for the occasion, Mr. and Mrs. Ray Elmer King were honored on their golden wedding anniversary at a series of parties during the past weekend at Homer and Rushville.

Principal among the family gatherings was a luncheon and reception Saturday afternoon at the Country Fare in Homer. For this event, Mrs. King chose a green formal length gown with gold accessories, set off by a white orchid corsage. Other ladies in the immediate family were presented with daisy corsages, in keeping with the day's motif at the restaurant.

During his remarks after the luncheon, Mr. King commented on the formula for their long, successful marriage by saying: "On May 31, 1924, we were married in Pocatello, Idaho, and went on a honeymoon that has lasted 50 years, with slight interruptions to earn a living."

Joining in the anniversary celebrations were the couple's daughters: Mrs. Richard (Florence Marjorie) Burgoyne, with her husband and their son, Grant, of New Orleans, La., and Mrs. Robert (Miriam Edna) Bilyeu, with her husband and their son, Robert, and daughter Kathy, of Los Angeles, California, and the Kings's son: Earl, with his wife, Jeanne, and their son, Christopher, of New York City.

Also in attendance were Mrs. Howard (May) Brown of Homer, local hostess to the out-of-town visitors, with her husband and their daughters: Mrs. Ruth Theobald and her daughters: Mrs. Terry (Sharon) Rensberger, with her husband and their son, David, of South Bend; Mrs. John (Janet) Drook, with her husband and their son Tim, of Marion ; Janie Theobald of Shelbyville and Mrs. Theobald's son, Phil, also of Shelbyville; Miss Avis Brown of Homer; and Mrs. Walter (Betty) Baker with her husband of Rushville with their daughters Debbie and Kim. It was the first time in 36 years for all the above to be together.

In from Missouri for the festivities were Mrs. King's cousin, Mrs. Ralph E. (Irene) Moyle of Long Lane, with her husband and other members of their family: Mr. and Mrs. James Lynch and daughter, Sheryl, of Elkland; and Kimberly Oliver of Lebanon.

Special guest was Miss Sonoma Martin of Rushville, a longtome friend of Mr. King and his late parents, Mr. and Mrs. Frank King of Homer. Also attending were family friends Mr. and Mrs. Joel Lasker of Evansville.

Among well-wishers from throughout the country who sent messages of congratulations to the anniversary couple were President and Mrs. Nixon.

The Kings' coast-to-coast celebration of their golden wedding day began last month in California where the couple has made their retirement home at Claremont after Mr. King's retirement as a locomotive engineer with the Union Pacific Railroad. Mrs. King, the former Bertha Seraphia Olson, had been a school teacher for 16 years before turning her full attention to family, church and civic activities.

They were honored on the date of their anniversary at a dinner in New Orleans, a Sunday buffet at the Hotel Durbin in Rushville also highlighted the Indiana phase of the festivities and their anniversary trip will continue with an extended visit in New York City.

COMMISSIONERS—

(Continued from page one)

The commissioners meet again Monday, July 1.

The Rush County Drainage Board heard complaints about debris and pollution of the John Fouts ditch, commonly known Hodges Branch in the city of Rushville. It was pointed out there is a considerable amount of illegal material dumped into the ditch at various points, and also buring of trash along the slopes which drain into the ditch.

The board pointed out that this practice is illegal, and an attempt will be made to police these offenses.

In regard to Flatrock River, John Reed, who has purchased the Richard Anderson farm south of Rushville, advised the board that a serious "plugging" problem is threatening to divert the channel of Flatrock River south of Rushville, due to fallen trees and other debris.

The board said there are no funds available at this time for dredging of non-navigable streams, but the matter would be taken under study.

In routine items, the board approved accepting jurisdiction of the Sam Kirkpatrick drain from Fayette County, and approved a request that the John Bitner drain in Washington and Center Townships be connected to the Fred Bell drain.
